Dear little daughter

Experience is a dear lesson but some times you can profit all through your life by it and it proves to be a blessing in the end. You were so dissatisfied and disallusioned I just figured I would let you try it out then when you decide to come back you will be able to see things as they really are. and you will be a satisfied and contented girl because you will know that you are really blessed.

Poor little Neva almost cryed when she came home and you were gone and she didnt even get to say good bye. Wayne is an angry over bearing animal I couldnt live around him a month with out going insane I surely pity her to the bottom of my heart she has a selfish ~~two~~ hard mother and there is the story in a nut shell. Neva + Wayne left the same night at 1:20 / oclock

We are all well and O.K. Errol + Ned are still running after Frank. Glade is helping Leonard for a couple of days and Lydia is in Mt Pleasant Visiting

Etha I paid $1.50 and run an addvin the paper to rent my front room. no response so I went to H. I have watched the adds I thought I would try to work a few days but there isnt any thing worth while so far. I started taking the paper. Telegram for a mo. its to lonesome with out a paper.

Petersons were here one night had supper + breakfast. Glade or I + the two little boys are going to spend Christmas with them. Im sure it will be Glade if I can get him a suit. Cora. Jess Beglers wife who runs a beauty shop in Park slept with me two nights and had breakfast with me twice. We went to Coveys twice + had a glorious time but such trash I would commit suicide rather than pick up with any one down ther, went to Jacksons + to a show. she gave me a new pr of slippers but they are a little to large. Im settling down now to the same old routine. Lydia Petersons and all went to Coveys Andrew is a good dancer the only decent man I danced with.

I ful tried but I must iron to day. my clothes are ~~sprinkled~~ down.

I wanted you to meet Deane he's a real fellow. I think he wanted to meet you.

Tell Doug hello has he found any thing to do yet? have you written to Dr Bennion Harry or Mrs Schofield? show us the money holding out. I hope dear you find a good job good company and a nice room with a nice girl and at the same time have a good time and take care of your self. You didnt mention Leona Gaffs. What about her. Or Harold she has never written here have you heard from him. If not dont write just drop it. skip the whol affair there is no use running after him. he would keep you running the rest of your life thats what happend to Neva. Come back if you cant do better we miss you Neva & the baby. I'm sure Dr Bennion will realize things & do what he can to get you something worth while. I will help you with your short hand and every thing will be O.K. no matter what Decision you make. There is nothing I would injoy more than to spend hrs With you each evening helping you with your short hand etc.

Neva wore the white shirt + yellow blouse the skirt was tight on her. around the waist + hips.

I guess your having a hard time making this letter out. I'm afraid I cant read it my self.

I hope dear you have your health + strength above all in the World. write soon and often. be good + have a good time + as to staying or coming back think it over seriously then when you make up your mind go in for it with contentment in your heart. theres nothing to this unsettled way of living. I think a lot of my children they are all I have to live for + I do hope their lives will have plenty Sun Shine.. enough to over do the clouds. I will send you Neva's address as soon as I'm sure what it is. + I will send her yours as soon as I write to her.

Love from us all to you + Dorg ~~all~~! + Best Wishes for your happiness + welfare We hope you will use good judgement and do the thing that is the best for you. You home sick + lonesome dear we are all right so dont worry over us. I guess Neva is worrying to. / Mother X O
