

Mon A. M. 17.

I havnt slept all night. Etha
since I recd your letter I have done the
goofiest things, I've worried untill I'm
sick body and mind. Bless Doug he's
been a pall to you dear, patient and grand
he's almost been like a bough. How is
he & what is he doing & I worry over him
too because I know he's broke. Etha dear
write at once and let me know if every
thing is all right with you. I thought
you would be so happy but it seems
every thing has gone hay wire. I really
thought it would help you to get away but
dont be afraid or ashamed to come home
the people at the Utah Power & Light
will understand, and I know you will
be better off here. I thought it would
be a God send to Nera to have you
near her. but what can you do for
her you arnt near her any way. your
happiness is mine dear dont come
home for my sake but do what you
think is best for your own dear self.
dont try and lay awake & worry. I've

I've been worrying over Nera too & it isnt helping any one
only injuring me & the children

done that untill I'm a nervous wreck
no good for my self or the children.
I've done such out rager things since
you & Nera left. It makes me sick &
ashamed to think about it, all I know
is that we must get a hold of our selves
and quiet down and be as free from care
& worry as possible. I'm so unhappy over
Wayne. I know he isn't good to Nera & I
could see through it all this trip.
God bless my poor children. I am
helpless, I can tell now I can't hold up
nunder anything. Tell me what you
have decided on dear and how you
feel by now. I must quit writing
every day or I will run out of stamps
& stationery & there will be a long
wait then it will be you to wonder
what is wrong & I mustn't forget dear
little Nera & Allen. I'm waiting to
find out where to write so I can write
to them
