Etha Dear.

Please write to me.

We all love you dear and no matter what you do its O.K. with us but we want you to do the thing thats best for ^{non self} you. Doris was here last night and the subject came up about you and Dang. she say you give Sam ^{\$}10.00 out of your own purse on that affair and that Dang pocketed 5.00 the change Sam handed back. if that is so I dont think much of Dang. Now dont get discouraged and marry him at the spur of the moment while you are upset & down in the dumps. But wait a couple of yrs. I feel like something good is coming in your life if you have patience you deserve it and why not look for some one who can give you what Heriel has done for Doris. she has all any woman could ask for. Etha I dont believe in a woman working to help support a man. because when she cant do it any longer he gets tired of her. its ^{diff} if she wants to ~~to~~ ^{do} it or if she does.

a little at times just to help out. you
can always come home darling and we
will understand each other from now on
but don't jump into marriage. it may be
all for the best & something good will
eventually turn up for you & all of us.

Write soon

We love you Dear don't think we
don't. it's too bad Sadie & your dad interfered
with you & your Harold that time &
that you couldn't see that I came a
head of Sadie. I was the one to consider
she had no business there & should have
been shown her place. I hope you are
through with them for ever and in
under all circumstances

Mother

I hate Ellen but Doris is O.K. she
said all she hoped was that the
best in the world would come to you.
Ellen is no good.
