Miss Thomas is grand + Mrs Gordon has done a lot of nice things for me she knows I'm worried over my children.

Things are O.K. at Tri 28. th
home so Please dont worry about us.

Doug sent me stamps and I am useing them, thanks him for me.

How are things panning out? for the best, or worse than +...

Etha its wasnt a crime, sin or any thing to be ashamed of to quit this job + go to Cal. If things are brighter and you want to make a go of it, if that seems the best way, its O.K. but on the other hand if you feel like the wisest thing would be to come home just pack up + come, dont let pride over power your best judgement. I hope you are getting a clearer Vision or a better understanding of every body every thing and of your self. this will do you the World of good wheather you believe it or not. you will understand a lot of things you couldnt see through before. a spirit of contentment is a blessing to any one.

I'm glad Lyda is here. I hope she is sure for keeps. I would marry them if they would only now.

What is Doug doing. what does he make Where would he rather be there or here and

where does he plan on locating. to bad he quit his good job at the Chestnut Seantist or what ever it was + its to bad we cant all see a head some times but we just cant.

Have you herd from Harrold yet. dont put up a sob story or talk about Doug be proud + independent Dear you still have a mother + a home such as it is it seems we always find a way. we aint suffering so dont get down on your knees to him just be a lady and as sensible as you can be.

some day when I have plenty time to write neat + intelligent I will ans Dougs letter you can send me his address. I hope you can + will always be friends I mean you + Harold + you + Doug. Have you seen Thora do you write to her?

The nights are crisp + fall like + the last few days have been cooler a fall breeze. we sleep with a blanket over our sheet at night and it isnt to warm. food prices are sky high and coal is quite a price the children have rustled the Winters kindling. its all cut up + in the shed. some how it always makes me lonley + blue when Winter first shows up.

but at that I feel more secure here than I ever did in Ephraim. I have a few tough ones there.

Blanch is working at Cut Backs again Backs but it wont last long. Pete just came home from visiting Mae again. Ellen is as treacherous as ever Sam has been ill again Have you seen Mae.

Lydias are all the same, a fine family all the way through Lydia is a grand woman and her children show for it.

I must clean my dirty house tomorrow + wash my dirty hair I dont hurt my self working in fact I take it pretty easy. Now Dear we all make mistakes. Come home if you feel inclined + if you are still unsettled and in a muddle. let me know if you are ok steady what you are making and how things have panned out I will be very anxious to find out.. Ida so anxious to hear from Neva to get her address + to write to her Bless my two girls + my three boys. Glade gets tried + discouraged too. to tell the truth about it I have it better than I have had it in years + I still have troubles + Worries.

I wont write again until I hear from you The Boss Thanks

I do hope Doug strikes something good and that he finds happiness, has good health and lands a worth while job. as for an Elsa concerned the best is none to good. This old World is full of strife but we must all make the very best we can of our selves.

Take very good care of your self. dont get sick down there alone ~~and~~ rely on your own mind + make your own decisions You are down there where you have found out for your self I dont understand the condition + circumstances as well as you. but I do know there is no place like home. What does Doug advise. after every body advises do what you think is best down in the bottom of your heart. I hope Neva takes the right stand I'm afraid she's in for heart aches + that is all she has ever known. I do hope + pray for her + that darling child.

Love kisses + best Wishes from the folks at home.

I'm sure you are proud of my letter writing but you forgot to mention my neat penmanship my perfect spelling etc.
