

Sat. 28<sup>th</sup>

How are you by now? feeling better I hope. I sent you a letter + a card the same day. Etha please send me Nera's address the one she went to when she went to L.A. with the baby when Mary + Renny lived with them. Don was there to see Nera so he will know it if you don't. I think Mary + Renny still live there and I think Nera + Wayne are with them, at any rate I will write to that address + hope Nera gets it O.K. now send it to me by return mail I must write to her she will think we have deserted her. the poor little kid. she hasn't a very bright future. I worry over her + think about her every day. and that good little darling baby.

Etha I think if things are the same + you feel the same you had better pack up + come back home we will move down close to the business.

district & you can walk ~~back~~ back  
and forth to work & even come home  
for lunch. The only worry is getting a  
place with a stove connected up.  
It will cost me 20 or 25 dollars to get  
a range with a hot water jacket. If  
you should get sick there alone it would  
mean you go to a charity hospital and  
leave your belongings in Leona Jeffs  
care or some one else. Do you feel  
better there or here I hope you arnt  
any thinner. and I hope you have your  
health & strength if not come home.  
let me know how your swan is etc.  
and what you intend to do.

Love from the family.

Please answer by return mail  
and send me new address. I must  
write to that dear little girl at once
