

The letter of you will be. so decide to do the thing that is best for you. (your own well fare + stick I think a 2 week rest is what you need right now. 424 Sego Ave Salt Lake City Utah. Wed. 2nd Sep. 1936

Dear Etha. ^{we all get tired and dis- couraged but we must look ahead and try to plan something worth while. Restful & elevating of mind}

The baby woke me up at 12 o'clock coughing, so I got nervous and started thinking about you. Nera + baby are here now so I have quit worrying over them. Etha if you can go back to Dr Benneour's office and work for ¹⁰1.00 a mo by all means come back home at once write a letter and tell them you are on your way. You so unsettled worse than you were here & it may end up in a nervous breakdown which would be tough on all concerned.

I do hope poor Doug is getting something good you have wrecked him. Dear dragging him from that first good job. forget all about Harold & so will I he is holding something back on you. There's something you don't know & he doesn't mean for you to find out. you have done your part this time, he did more than his part the first time & I think it would be O.K. to end it all if you haven't seen or heard

we are well + getting along fine no far.

from him since you wrote the letter more than that telegram. I do hope from the bottom of my heart Doug finds something encouraging and worth while + I also hope we can always be the best of friends. he's genuine as far as I can see I hope I'm not mistaken. you didn't answer the question about Ellen don't you can tell me when you see me + in the meantime we will forget all about that we all do mighty foolish things. we have a large house + plenty of room but my dear we are going to move as close to your work as we can get if you come back + save many steps for all of us. I want to be close in, the closer the better + if we ever get what we want stay there. the stove connected up is the problem, or buying one. Can you get the Utah Power job back. I hope so. If I had known that I should have told you to come back long ago. I'm going to take an aspirin and go to bed to sleep. I'm tired of laying awake thinking. I couldn't stand a wild confused life + neither can you. The quicker you settle down to something quiet

You have been a wonder & you have done your best. I appreciate all you have done for me & the children & only wish we could get in right now and tide you over with a nice sized check and give you the right and proper advice for your own good. Think of your self and do what the thing that ~~looks~~ gives you a brighter out look to your own best judgement. I cant understand you or the mix up down there and I dont want to mislead you. but I figure home & mother is the best place on earth untill you get a Husband who is a real companion & one you ^{Admire} & respect.

Mrs Smart was up tonight she has a boy for me & wants me to come down and get it. Nera needs shoes & things. Lydia offered me some rice over the girls didnt want but I didnt want them either but I hope I can get them now for Nera

if she hasn't given them to save one
else I must get to bed. did a big
wash a monster today + helped Mrs
Gordon a couple of hrs. Will write
and tell you all about it never got
on the P.W.A. if the children got
what they needed for school + all
about every thing next time. my bed-
get from the Govern^{ment}. What we got
from Lydia + Mrs. Smart. etc.

Lydia has been an angel. she has
been feeling terrible. she's a woman
in a million when I write to Peter
or I will send them your message.
Ma and the whole damn
family.

Eve's a darling I hope you will al-
ways remember her as a real fall the
kind of a friend you don't find every day.

do the thing that is best for your body
and soul. you have a good many years
ahead of you.
